

**NOTES:**

- Existing utilities shown are indicated in accordance with available records and field measurements. The contractor shall be responsible for obtaining exact locations & elevations of all utilities, including sewer and water from the owners of the respective utilities. All utility owners shall be notified by the contractor 72 hours prior to excavation. Contact Digger's Hotline (1-800-242-8511) for exact utility locations.
- See Sheet C-1.12 for Erosion and Sediment Controls to be employed during site development. All sediment and erosion control devices and methods shall be in accordance with the Wisconsin Construction Site Handbook and DNR Technical Standards. DNR Technical Standards shall supercede the construction site handbook as they are approved and posted on the DNR website.
- The Developer (Site Development Contractors) is responsible to establish the grade elevation of the full extent of the street right of way and all drainage easements.
